DETAILED ACTION

Applicant's cancellation of claims 2-45 in Paper No. 4 is acknowledged.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1,50,52,55,57,61,64 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1,9,10,14,17,25 of U.S. Patent No. 6,213,845 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant application fails to disclose the specific limitation "the optical pass-through system comprises a first elongated slot through the planarizing medium that extends along the length of the planarizing medium in the direction generally parallel to the pad travel path, the slot dividing the planarizing medium into a first section and a second section" of U.S. Patent No. 6,213,845 B1.

Art Unit: 3723

Allowable Subject Matter

Claims 46-49,51,53,54,56,58-60,62,63 are objected to as being dependent upon a rejected base claims 1,52,55,57, but would be allowable if rewritten in independent form including all of the limitations of the base claims and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bajaj et al., Tolles. Swedek et al., Ihsikawa et al. Agarwal disclose for in-situ optical endpointing on polishing pad respectively.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Ojini whose telephone number is 703 305 3768. The examiner can normally be reached on 7.30 to 5.00 Tuesday-Friday with every other Monday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail can be reached on 703 308 2687. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703 308 1148.
